ABOUT US

Over 15,000+
Projects

Over 7,000 +
Satisfied Clients Globally

350 + Workforce
Working For You

45 + Years
Of Experience

GIBCA Group has been long recognized as one of the leading manufacturers and suppliers of contract location furnishings. Established in the early 1970's, its defining features are its quality and potential to innovate. Trusted by architects and contractors worldwide, GFI has done over 15,000+ installations from Middle East to Central Asia and North Africa, . The culture of innovation and creativity has established GFI as the leading space management solution provider in the region. All our products help utilize and maximize the potential of all that a space has to offer.

Our state-of-the-art manufacturing facility is located in Ajman Industrial Area, UAE where our extremely talented technical team turns out a wide range of custom-made products. We strive to provide expertly engineered design, top quality workmanship and a highly personalized customer service experience from the initial design stage to after sales. Our goal is simple – **we help you manage your space better!**

VISION

To be a leading and trusted provider of custom designed space management solutions in the region by providing world class manufacturing of premium quality products and superior customer service.

MISSION

To be a leading provider of high quality space management solutions and services that offers strategic value to our customers.

To provide unsurpassed customer service to our clients; Service is the heart of our business.

To create a culture that values and supports employee engagement, encourages personal development and fosters team collaboration.

To be a trusted and valued resource in the industry for experts and specialist.

We believe all built environments and their occupants can benefit from intelligent sustainable design irrespective of acquired certifications.

In close collaboration with our principals and suppliers, we strive to create an environment that will enhance the structure and lines of an interior space.

To be committed to our global responsibility of environmental care by manufacturing products that meet our standard of sustainability.

MAJOR PROJECTS

COMMITMENT TO EXCELLENCE & ENVIRONMENTAL SUSTAINABILITY

Over the years we have created a modern and efficient production facility to service our customers.

The emphasis is on focused research, latest equipment and machinery, production efficiencies and prioritizing on top notch quality. We strive to constantly adapt the best international industry practices, hence, training is an integral part of our operations.

Our products adorn many high profile and prestige's interior spaces across the region. Therefore, it becomes our responsibility to carefully monitor our production processes and our suppliers to ensure we meet the international standards required for environmental sustainability by:

1. *Conserving energy*
2. *Optimum use of natural resources*

We carefully monitor our production processes and our suppliers to ensure we meet the international standards required for environmental sustainability.
